Project Design Phase-I
Solution Architecture

Date	03 OCTOBER 2022
Team ID	PNT2022TMID38367
Project Name	Project - - Visualizing and Predicting Heart Diseases with an Interactive Dashboard
Maximum Marks	4 Marks

Solution Architecture:

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions.

 Its goals are to:

 ● Find the best tech solution to solve existing business problems.

 ● Describe the structure, characteristics, behaviour, and other aspects of the software to project stakeholders.

● Define features, development phases, and solution requirements

● Provide specifications according to which the solution is defined, managed, and delivered.
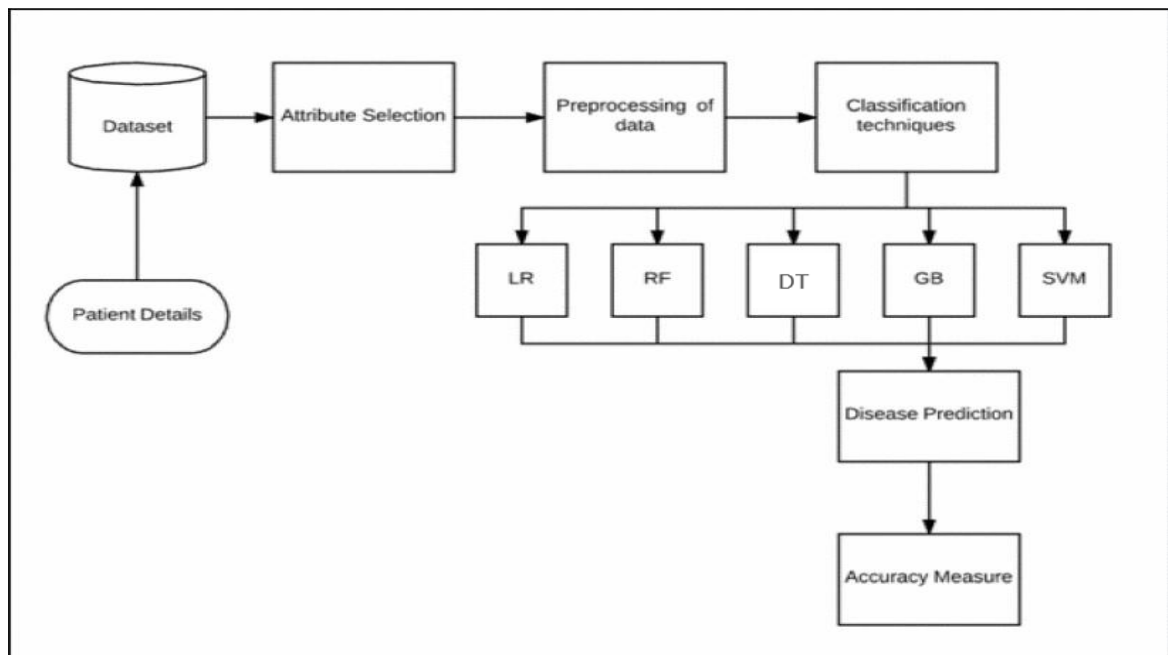

Example - Solution Architecture Diagram:
